6 FOR \$1.00 POSTPAID

50 FOR \$5.00 POSTPAID

Note: Caladiums will do much better if not planted until the ground is warm. Bulbs are available and immediate shipment can be made when requested but we do not recommend planting before April 15th. Orders for Caladiums will be shipped the first week in April unless specific instructions are received to the contrary.

The most fascinating and most beautiful of all brightly colored foliage plants. As a hot weather foliage plant, the fancy leaved caladium is in a class by itself. The leaves are beautifully colored and often reach a diameter of 18 inches or more.

We have a wide selection of brilliantly colored varieties. Some are almost pure white with green ribs, some are almost pure pink, some are red and green, and others contain many shades and hues. Exotic is the word that best describes their exquisite beauty.

They may be grown in pots as house plants, in window boxes, or out of doors in either sun or shade.

Caladiums are easy to grow; a direction sheet giving instructions in detail is enclosed with every order. We believe that Caladiums are most attractive when they are not planted in a general conglomeration but if groups of one color are planted together. For this reason even when assorted bulbs are ordered they will be kept separate and labeled. Color descriptions are to the best of our ability but are not reliable since growing conditions affect the color of the leaves. In general colors are prettiest when the plants are grown in the shade in loose rich soil, are kept well fertilized and kept heavily watered. Please do not order by specifying a particular variety except in the case of Candidium (white) since we would soon be sold out of all the illustrated varieties although some of our finest varieties are not illustrated.

We have a very much wider selection of colors than is indicated on the back of this folder and, although we reserve the right to substitute colors, we will follow your wishes as closely as practical. If you have a color preference please indicate by checking one of the spaces provided below.
